u2665u2665u2665u2665u2665u2665 game DOESNT EVEN HAVE A QUIT BUTTON. i mean is a great game. its free i cant compail. but the thing is u need money for alot of things but u dont earn it that quick mostly of the cars you need to pay irl money.. It is gay that you use tiers when you are practicing and if you want more tiers you ned to pay.. this game does have potential but as of now its not really worth it, yes it is free but it has many problems. problem 1 the physics are terrible and i mean terrible sometimes you just slide through things. problem 2 the backround is horrible to look at bcause it doesnt move a the same pace your car does and btw motion blur doesnt solven this. problem 3 the fact you have to wait to repair your car repairing your car should be instant and free not timed like a mobile game. problem 4 the video settings screen is lacking, there is no fxaa nob,no mxaa, basically no anti aliasing switches at all. nuow heres one thing that is reedeming about this game, it is genuinly fun to go into servers and drift, but that its for the pros.. Waste of couple seconds of my life.You drive like a autistic lol.
